

A dense forest of green trees with a misty background. The trees are lush and vibrant, filling the frame. The mist is soft and ethereal, creating a sense of depth and atmosphere. The overall tone is natural and serene.

Climate action for your employees

clime

An affordable employee benefit with purpose for your sustainable company culture.

With Clime your employees can measure, reduce and compensate their CO₂ Footprint to live a climate neutral life.

Why should you use Clime to create climate active employees?

Create awareness among your employees & foster a sustainable culture

Realise a competitive advantage in the war for talent

Support verified climate protection projects and make a real impact

Receive detailed Scope 3 emission reporting for your CSR report (e.g. commute)

How Clime works for firms.

Start with Clime in 3 simple steps:

- 1. Invite your team**
- 2. Receive insight into your climate action**
- 3. Share your impact**

Step 1 - How Clime works for firms

Invite your team

- Invite employees via email input or by uploading a list of emails
- Choose which and how many employees to onboard
- Your employees receive an invitation to join Clime and can onboard within a couple of minutes

Step 2 - How Clime works for firms

Receive insight into your climate action

- Receive detailed information and data into the absolute and average CO₂ emissions of your employees
- Extract accurate Scope 3 emission data to complete your CSR reporting and carbon accounting
- Observe where your resources are best implemented to further reduce emissions (e.g. bike offering)

Step 3 - How Clime works for firms

Share your impact

- Communicate your impact with your sustainability profile and *Climate neutral employees* badge
- Place these on your website, job offers or career website to reach candidates, customers and partners
- Access our media toolkit and get access to logos, badges, social media assets and visuals and videos from your supported climate protection projects

How Clime works for employees.

Become climate neutral in 3 simple steps:

- 1. Calculate your CO₂ Footprint**
- 2. Reduce your CO₂ Footprint**
- 3. Compensate your CO₂ Footprint**

Step 1 - How Clime works for employees

Calculate your CO₂ Footprint

- Answer questions regarding your lifestyle and understand the correlating CO₂ impact
- Receive insight into your private and work related CO₂ emissions
- Clime's state of the art CO₂ Calculator is based on data from the Federal Environmental Agency

Step 2 - How Clime works for employees

Reduce your CO₂ Footprint

- Gain insight into your CO₂ Footprint through relevant comparisons and equivalents
- Engage in our gamified and data-driven challenges to successfully reduce your CO₂ emissions
- Collaborate with your team for maximum impact

Step 3 - How Clime works for employees

Compensate your CO₂ Footprint

- Your CO₂ emissions are compensated through our handpicked and verified climate protection projects making your life climate neutral
- Our diversified Clime project fund offers a versatile and impactful way to create long lasting climate impact
- You can transparently track your individual & team climate impact
